

June 5th

Dear Lillian,

I appreciate very much the way you shared your Holocaust experience with my class and me. I know it must have been very hard for you and I think it is good that you don't keep your emotion inside of you. I think what you do, educating students about the Holocaust is very useful because we are the leaders of tomorrow and it is less likely for us to make the same mistakes as the leaders of the past. I will try to read your books because they look very interesting. I now realize that what we have learned about the Holocaust has not been exaggerated and that it was definitely the most cruel thing I've ever heard of any group of people doing. I think you must have had a guardian angel with you to keep the Nazis away from you and your parents. I hope you have a happy life.

Sincerely,
