

☺ = DEAR: BRONIA SONNENSCHN, IN,

Oct. 30/96

I'm sure you're going to get many other letters that say the same thing - your speech was beautiful. This is because everybody in the room was touched when they heard you speak.

I myself am half Croatian and as you might already know, there was just a war there. My family was always always watching the news and getting updates of what was going on. My father was especially upset because members of his family lived there. But I never really clued in on how bad war could really be, that there were innocent children getting killed. I never really had a full understanding of the pain the people actually go through - until I heard you speak. You were my age, and suffering. Once I pictured myself in your position, that's when I broke down, and now I fully understand it all because of you. Thank you.

Love always, ♡

P.S. Please continue speaking about your life. You really made a difference and I'll never forget you. ☺
